

Achref Maarfi

achref.maarfi0@gmail.com | <https://github.com/achrefmaarfi> | <https://www.linkedin.com/in/achrefmaarfi/> | Ariana, Tunisia

Professional Summary

Full-Stack Software Engineer with hands-on experience building scalable web applications using React, Next.js, Angular, Django, Django REST Framework, and PostgreSQL. Skilled in developing responsive user interfaces, designing RESTful APIs, containerizing applications with Docker, and implementing CI/CD pipelines. Passionate about software architecture, clean code, and delivering maintainable, high-performance solutions in collaborative engineering environments.

Skills

Languages: Python, JavaScript, TypeScript, Java, SQL, PHP, .NET, Git, Bash

Frameworks: React, Tailwind CSS, Angular, Django, Next.js, REST APIs, Express.js

Technologies: MongoDB, Figma, Spring Boot, Docker, Maven, RabbitMQ, Linux, Nginx, Jenkins

Databases: PostgreSQL, Redis, MySQL, Oracle

Design Tools: Adobe Illustrator, Adobe Photoshop

Experiences

Software Engineering Intern Intern Contractor, Business Management Group (BMG) – Ariana, Tunisia February 2025 – September 2025

- Developed a full-stack social media management platform using Next.js, Django REST Framework, and PostgreSQL to centralize content planning and publishing workflows
- Designed and implemented secure RESTful APIs, authentication systems, and scalable backend services for multi-user account management
- Integrated Google Gemini AI to automate social media caption generation and enhance content creation efficiency
- Leveraged Docker, Celery, and WebSockets for containerized deployment, background task processing, and real-time application features

Frontend Web Developer Intern Intern, Business Management Group (BMG) – Ariana, Tunisia July 2024 – August 2024

- Converted a Figma prototype into a fully responsive React.js web platform for a Pilates studio, styled with Tailwind CSS for consistency across devices
- Delivered pixel-perfect UI implementation by partnering with designers and optimized components for performance and user experience

Frontend Web Developer Intern Intern, INSTAR - Cité de la Culture – Tunis, Tunisia July 2023 – August 2023

- Built a web application for administrative management using Angular 16 and MongoDB for the Cité de la Culture

End of Studies Intern - Web Development Intern, Move Up IT Solutions – Tunis, Tunisia January 2022 – June 2022

- Built a web application for consignment sales, managing client sales, products, sellers, contracts, and invoices using Node.js, Vue.js, and MySQL

Project

WhereToGo - Event Registration Platform

- Built an event creation and registration web app using a microservices architecture with Spring Boot, Angular, Docker, and Keycloak for authentication

Education

Ecole Supérieure Privée d'Ingénierie et de Technologies (ESPRIT) – MS in Computer Science / Software Engineering January 2026

Higher Institute of Technological Studies of Beja (ISET Beja) – BS in Computer Technology, Information System Development June 2022
